

# SCIENCE WORKING IN HARMONY WITH NATURE

Developed with over 20 years of research and trials in Australia and New Zealand, **ECTOL** helps takes the guesswork out of implementing more natural and organic farming practices.

Our science-based approach has led to the development of a range of liquid and prilled nutrition solutions that efficiently nourish crops and pasture.

A successful alternative to synthetic fertilisers, **ECTOL** has a prescription for all farming situations. Whether you are in transition or certified organic, with **ECTOL** you can boost production, improve soil health and farm sustainably, without increasing costs.

All liquid products available in 1000L, 200L & 20L. Apply via foliar spray, fertigation or irrigation.
