

# MAGNESIUM Chelate

Magnesium (Mg) as Magnesium Lignosulphonate 51.1 % w/v

**GENERAL INFORMATION:**

This trace element is chelated (protected from becoming unavailable) in naturally occurring Lignin compounds, for maximum foliar and root absorption.

**RECOMMENDATION:**

This product may be used or applied for citrus, stone fruit, grape vines, cereals and other crops, legumes, grasses, market gardens and tree crops.

**COMPATIBILITY:**

Do not mix with oil base chemicals, residual herbicides or urea on tree crops (Almonds).

**SAFETY DIRECTIONS:**

Avoid contact with skin and eyes and avoid breathing in vapour or spray mist.

**CONDITIONS OF SALE:**

The Manufacturer and Distributor warrants that this chelated trace element product contains the active constituents and chelating compounds, such as specified, and it is for the accordance with directions under normal conditions of sale. No one, other than the officer of the Manufacturer and Distributor, is authorised to make any warranty, guarantee or direction concerning the product as the time, place, rate of application and other conditions are beyond the control of the Manufacturer and Distributor.
